About this document

Estate agents are required to provide consumers with 'material information' in property listings to ensure they can make an informed decision when buying a property. Material information is information that the average person needs in order to make an informed transactional decision basically, whether a person decides to enquire further, view, or buy/rent a property.

The estate agent you're buying from is dedicated to helping people find the right property for them and, as such, is providing this information so that you can make an informed decision.

If you have any questions about the information contained in this report, please contact your estate agent.
